### INTERNATIONAL SEARCH REPORT

International application No. PCT/IB 03/00860-0

### CLASSIFICATION OF SUBJECT MATTER

IPC<sup>7</sup>: A61K 39/04, 39/39, A61P 11/06

According to International Patent Classification (IPC) or to both national classification and IPC

#### **B. FIELDS SEARCHED**

Minimum documentation searched (classification system followed by classification symbols)

## IPC<sup>7</sup>: A61K 39/04, 39/39, A61P 11/06

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

### WPI, CAS, Medline

### C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.	
Α	HOPFENSPIRGER. M.T. et al. Mycobacterial antigens attenuate late phase response, airway hyperresponsiveness, and bronchoalveolar lavage eosinophilia in a mouse model of bronchial asthma. International immunopharmacology, September 2001, Vol. 1, No. 9-10, pages 1743-1751, Medline-abstract [online], [retrieved on 12 June 2003 (12.06.03)]. Retrieved from: EPOQUE Medline Database, AN: NLM11562066 abstract.	1-21	
А	SUZUKI, N. et al. Can Mycobacterium tuberculosis infection prevent asthma and other allergic disorders?. International archives of allergy and immunology, 2001, Vol. 124, No. 1-3, pages 113-116, Medline-abstract [online], [retrieved on 12 June 2003 (12.06.03)]. Retrieved from: EPOQUE Medline Database, AN: NLM11306944 abstract.	1-21

See patent family annex.

- Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international "X" document of particular relevance; the claimed invention cannot be filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
